CAD & TOOLS

- Autodesk Fusion 360
- SolidWorks
- AutoCAD
- CATIA
- Figma (UI/UX)
- Arduino IDE
- Proteus

TECHNICAL SKILLS

- CAD Modeling
- Simulation & Analysis
- Product Development
- Generative Design
- Machine Operation
- UI/UX Design
- Full-Stack Concepts

LANGUAGES

English • Tamil • Hindi • Malayalam • Japanese

SOFT SKILLS

Leadership • Time Management • Teamwork • Motivating Teams • Problem Solving

CAREER OBJECTIVE

To secure a **Design Engineer** role where I can leverage my expertise in CAD/CAM, machine design, manufacturing processes, UI/UX design, and full-stack development to deliver innovative, efficient, and reliable engineering solutions. As a motivated and adaptable engineering student, I aim to apply my technical and creative skills to drive organizational growth while continuously enhancing my engineering expertise and problem-solving capabilities.

EDUCATION

B.E. Mechanical Engineering
2023 – 2027

Saveetha Engineering College

INTERNSHIP EXPERIENCE

Engineering & Technology Intern
Campus Internship

Reference: Shakeer

- Gained hands-on practical experience in **UI/UX Design** and **Full-Stack Web Development**, creating responsive user interfaces.
- Explored core concepts and practical applications of **Artificial Intelligence (AI)** and **Machine Learning (ML)**.

KEY PROJECTS

Gesture Controlled Car

Arduino IDE | **Proteus** | **Embedded Systems** | **Hardware Prototyping**

- Designed and built a gesture-controlled robotic vehicle using microcontrollers and accelerometer sensors.
- Simulated circuit schematics in Proteus and programmed control logic via Arduino IDE.

UI / UX Product Design in Figma

Figma | **Wireframing** | **Prototyping** | **User Research**

- Created user-centric digital interfaces, wireframes, and interactive prototypes for web and mobile applications using Figma.
